

Akat - Packaging, foil, bags

About The Company

The Company called Akat-Folia was established in 1993. Since that time we have been involved in plastic containers production trade. The aim we accepted and persevered in is to produce a product of the highest quality which meets requirements of the market and meets our Customers' expectations.

We are a family business. When we deal with our Clients we pay full attention to their satisfaction by flexible adjustment to their needs. Since year 2006 we have become an official partner of one of the most modern flexographic printing-houses in Poland – company called BAHPOL. The main partnership goal between our companies is to achieve the highest standard of customers service in the selected fields and regions.

Our company head-office is located in Wroclaw but our range covers the whole of Poland and the EU countries. As we guarantee high quality of our products we welcome to co-operation with us.

Packaging is an inseparable element of any product and its function is to protect and to promote. By packaging your product one may rule the demand and preferences of buyers, and thus one may influence market phenomena. It is “the packaging that sells the product while protecting it”.
